

Compact Full HD webcam with privacy shutter

Both at home and in the office, the UC CAM75FS ensures you can enjoy all the benefits of video meetings. The integrated two microphone array detects audio from up to 4 metres away delivering high quality sound with no annoying background noise or distortion.

It supports all the leading conferencing software like Zoom, Skype, Microsoft Teams, and the simple yet effective privacy shutter guarantees the camera can only see you when you want it to.

77° field of view

The field of view means the viewable area one can see through the camera lens. It translates directly to how much of your meeting space will be visible to the participants joining remotely. A below 80 degrees field of view is a perfect choice for your desktop set-up.

2D & 3D Digital Noise Reduction

Delivering high image quality, these two image denoising technologies combined ensure crisp and clear visuals for video and photos, even in low light conditions.

01 CAMERA

Pixels	2M
Native resolution	Full HD 1080p
Supported resolutions	1080p/30fps, 720p/30fps, 576p/30fps
