Professional 4K Webcam with 8 mic array, Auto Framing and Speaker Tracking

The UC-CAM10PRO-MA1 is a professional 4K webcam with auto-framing and speaker tracking with 120° field of view (FoV). Auto framing adjusts to your position, placing the user in view at all times. Equipped with an impressive 5x Digital Zoom and integrated 8 microphone array, the strong audio detection with a range of up to 8 meters and clear zoom performance guarantees all users will be seen and heard. Thanks to a 15° tilt adjustment feature, the camera can be customized to fit your needs. If you are particularly cautious about privacy, a manual privacy shutter ensures your camera can only see you when you want it to. Easy to set up, this lightweight camera works in any and every environment large or small whilst supporting all leading conferencing software like Zoom, Skype, Microsoft Teams and more.

120° field of view

The field of view means the observable area one can see through the camera lens. It translates directly to how much of your meeting space will be visible to the participants joining remotely. A 120-degree FoV is the right solution for most standard meeting spaces.

2D & 3D Digital Noise Reduction

Delivering high image quality, these two image denoising technologies combined ensure crisp and clear visuals for video and photos.

Auto-framing

With intelligent face detection and voice localization, the camera tracks whoever is speaking and smoothly switches between presenters automatically adjusting to best fit participant location and quantity. It not only recognizes and zooms in on meeting participants, but also tracks speakers as they move about the room.

Clear, Crisp and Natural Audio

Featuring an advanced noise reduction algorithm, the integrated 8-element mic array detects audio from up to 8 metres away, delivering high quality audio free from any annoying background noise or distortion. - SPECIFICATION

01 CAMERA

Pixels	8.46M	
Native resolution	4K UHD	
Supported resolutions	2160p/30fps, 1440p/30fps, 1080p/30fps	
Diagonal field of view (dFoV)	120°	
Focus mode	fixed	
Focus distance	8m	
Aperture	2.5	
Zoom	5x digital zoom	
White balance	yes	
Exposure	yes	
Backlight compensation	yes	
AutoFraming	yes	
Number of camera position presets	1	
02 AUDIO		
Number of microphone arrays	8	
Voice pickup distance	8m	
Voice pickup angle	180°	
Automatic tracking	yes	
Noise reduction	yes	
Automatic gain control	yes	
03 CONNECTIVITY		
Camera	USB Type-C	
Host	USB v.3.0	
04 MICROPHONE		
Number of microphone arrays	x8	
Voice pickup range	8m (radius)	
05 CONNECTIVITY & BUTTON OPERATIONS		

USB Type C x1

MECHANICAL

Tilt angle ≤15°

Rotation 360°

Privacy shutter yes

07 ACCESSORIES INCLUDED

Cables	USB 2.0 (type A to C)
Remote control	yes (batteries included)
Power adapter	yes

08 SUSTAINABILITY

Regulations CE, FCC-B, RoHS support, ErP, WEEE, REACH

09 DIMENSIONS / WEIGHT

Product dimensions W x H x D	300. x 85 x 100mm
Box dimensions W x H x D	300 x 84 x 100mm
Weight (without box)	0.346kg
Weight (with box)	1kg
EAN code	4948570033157
